

SSRC/JSPS Fellowship Program for ABDs and Recent PhDs

INSTRUCTIONS

PLEASE REVIEW THE FOLLOWING GUIDELINES, PROVISIONS AND RESTRICTIONS THOROUGHLY BEFORE COMPLETING THE APPLICATION.

The SSRC/JSPS Fellowship Program for ABDs and Recent PhDs provides promising and highly qualified researchers with opportunities to conduct research at leading universities and other research institutions in Japan for 1-12 month or 12-24 month terms. Projects need not be explicitly related to the study of Japan, but must propose work with colleagues and resources in Japan. The program especially encourages proposals for cooperative research with colleagues in Japan under the guidance of a senior host researcher. The Social Science Research Council serves as the nominating authority for US-based applicants in the **social sciences and humanities only**. Researchers in the fields of medicine or natural sciences should contact the Fogarty International Center at The National Institute of Health (<http://www.nih.gov>) or the National Science Foundation (<http://www.nsf.gov>) for application information.

- Fellowships are awarded for a single continuous stay in Japan only. Extended travel outside of Japan during the fellowship term is not permitted. Fellows may, however, suspend their fellowships for the purpose of childbearing or infant nursing. Fellows may not engage in other work, neither paid nor unpaid, during their tenures.
- Fellowships will be awarded in the summer of 2011. Long-term fellowship recipients must arrive in Japan between April 1, 2011 and November 30, 2011. Short-term fellowship recipients must arrive in Japan between April 1, 2011 and March 31, 2012.
- Period of tenure for a short-term fellowship is 1-12 months; long-term fellowship terms are 12-24 months. The fellowship tenure and research plan must be negotiated in advance with the host researcher.
- Host researchers in Japan must be employed full-time or classified as being employed full-time. All accredited universities and research institutions in Japan under the jurisdiction of the Ministry of Education, Culture, Sports, Science and Technology are eligible host institutions.

Eligibility

- Scholars who have previously been awarded a fellowship under the JSPS Postdoctoral Fellowship Program for Foreign Researchers (excluding the short-term fellowship) are not eligible.
- Eligible applicants are strongly encouraged to submit proposed dates for both short and long terms on the original application forms.
- JSPS does not extend fellowships to scholars employed in institutions under jurisdiction of the U.S. Department of Defense.
- In addition, candidates for the **Long-Term Fellowship** must:
 - Possess U.S. citizenship or permanent residency status. Permanent residents must provide a copy of a permanent resident card ("green card"). Researchers of Japanese nationality are ineligible.
 - Submit a copy of a Ph.D. diploma **from a university outside Japan** dated no more than six years prior to April 1, 2011.
- Candidates for the **Short-Term Fellowship** must:

Citizens of other countries may be eligible if they have completed a master's or Ph.D. course at a U.S. university and, upon completing the course, have for at least three continuous years conducted high-level research in the U.S. Researchers of Japanese nationality **must** be either U.S. citizens or permanent residents.
